

More than just kitchens ACE Cabinets specializes in custom designed cabinets for every part of your home. We create amazing spaces for bathrooms, entertainment, storage solutions, bars, offices and more.

# *Luxury Custom Cabinet Design For Every Part Of Your Home*

We provide a comprehensive renovation experience from design to installation to create your dream space.

We specialize in projects where our clients know what they want and are willing to work with us to create a timeless unique project custom tailored to their home that cannot be fulfilled by generic products.

*"We think of the details that get overlooked by other companies and create spaces that not only look & feel amazing but are highly functional."*  
*Frank Albus*

# Our Process

1

## Consultation & Measure

Get a professional design consultation for the layout and style of your home or project.

2

## Customized Digital Design

We will draw your blueprints and can render them in 3D so you can see your project before we start manufacturing.

3

## Manufacture & Deliver

We will create your cabinets to your custom specifications using one of Calgary's most advanced facilities and deliver them to your projects site.

4

## Installation & Renovation

We use our known, trusted & preferred red seal certified contractors to deliver a fast and problem free installation experience bringing your project to life while following all building codes.
